

US Army Signal Center

Ft. Gordon, GA

***Transforming
Information Technology
Training***

COL Peter T. Farrell
Deputy Commander/Assistant Commandant

INFORMATION TECHNOLOGY

- **Is Changing Our Lives...**
- **Is Changing Our Army...**
- **Is Not Going To Go Away...**
- **Why Shouldn't It Change The Way We Train?**
- **We Should Use It To Train Better, Smarter...**

AN EXPLOSION IN INFORMATION TECHNOLOGY

**Greater
Complexity of
Communications
and Information
Systems**

**More skills
Required of
IT Soldiers
and
Leaders**

**Rapidly
Changing
Technology**

**Perishable
Skills**

INFORMATION TECHNOLOGY TRAINING TODAY

AIT 31S Satellite Communications Operator Maintainer 39 WEEKS

Lengthy Resident Courses

Legacy, Digital, and COTS Systems

Rapidly Changing Technology

Train all Critical Tasks

Perishable Skills

Unit Training Required

School can't keep pace with Equipment

Bottom Line: *A significant training DELTA which varies by unit and location. Units bear the burden of this training DELTA*

CURRENT RESIDENT TRAINING MODEL SHORTFALLS

The Challenges

Unit Training Supplements are Duplicated and Not Synchronized

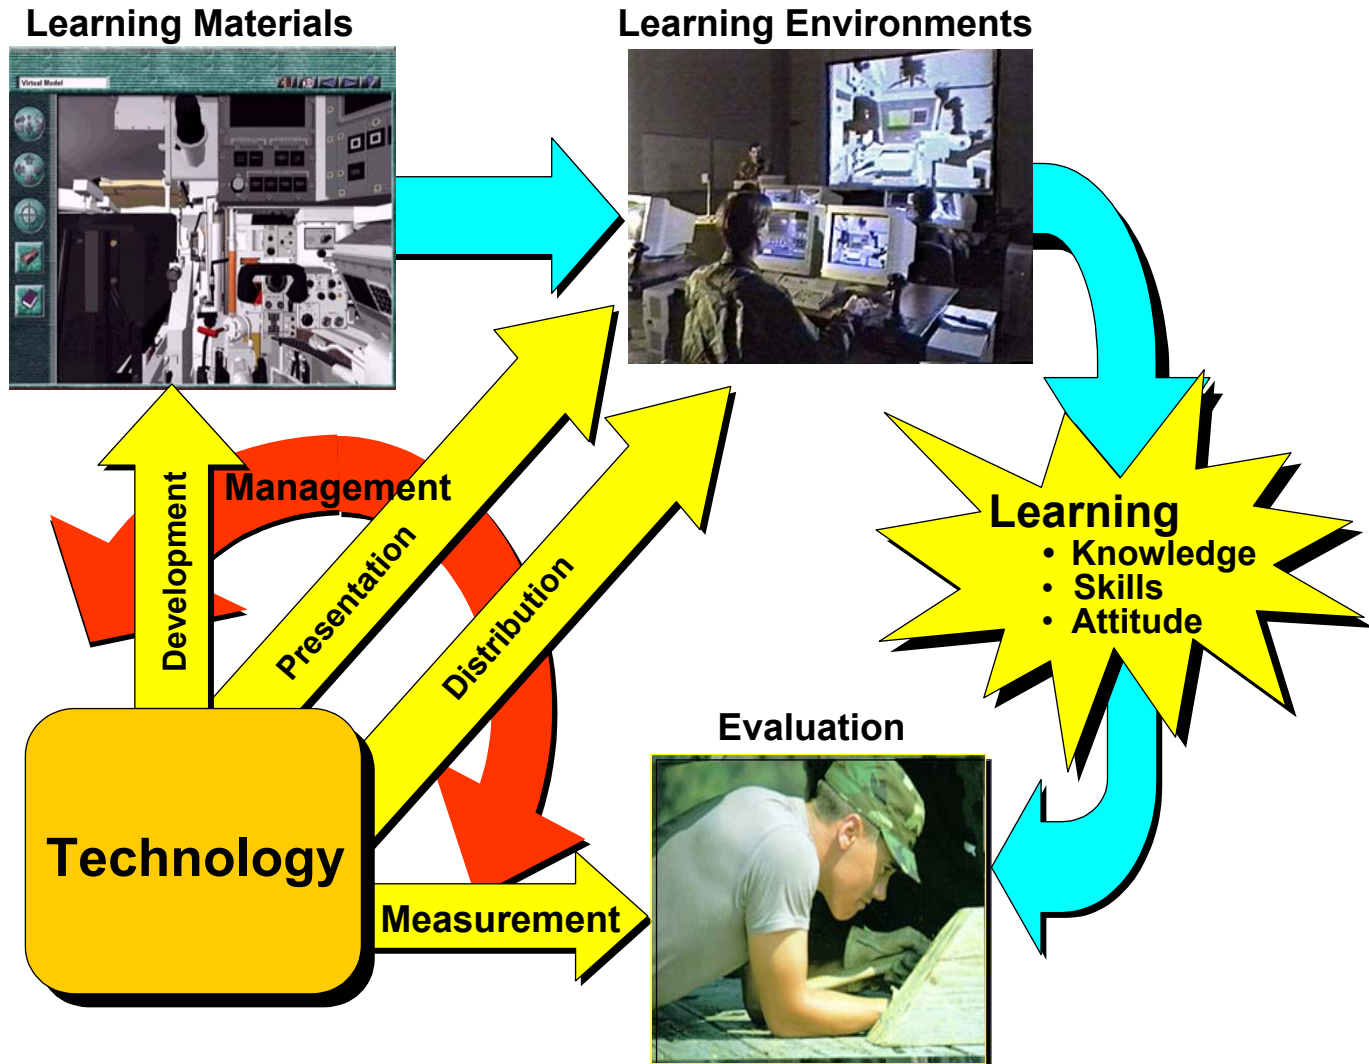

Length of Time Between Resident Training Opportunities. (AIT, BNCOC, ANCOC)

One Size Fits All (Active, RC, Digitized, Non-Digitized Tactical, Strategic)

Infrastructure of Schoolhouse Cannot Keep Pace with Demands (Equipment, Shifts, Facilities)

Bottom Line: We Must Adopt a Distributed, Lifelong Learning Approach to IT Training and Education

A NEW APPROACH: LIFELONG LEARNING

PROPOSED INFORMATION TECHNOLOGY AND DIGITAL TRAINING MASTERPLAN

- Adopt a **“Lifelong Learning”** Approach to Signal and IT Training
- Establish the **“University of Information Technology”** as the Hub of Lifelong Learning and Information for Signal and IT Soldiers, Leaders and Units
 - Provide **Extended Campuses** at locations with high density of Signal and IT Soldiers to provide training locally.
 - Establish a **Resource Center** for 24/7 Reachback to the University and to distribute Simulations Software and other courseware.
- Adopt an **Assignment Oriented Training and Education Model**.
- Create PC- based **Simulations** to Support **“Learning By Doing”**.

THE UNIVERSITY OF INFORMATION TECHNOLOGY

VISION

The UIT will be a **combination** of hardware, software, facilities, connectivity, and people providing **lifelong** education and training for the information technology community:

- **Begins with entry into the Army**
- **Continues throughout active service**
- **Extends to alumni**

Available while
Schoolhouse -
As Part of
Resident
Training

Available to
students in
Non-Resident
Training

Envisioned as a
Life-Long
Experience

Available to
Alumni

Available to
other TRADOC
Schools

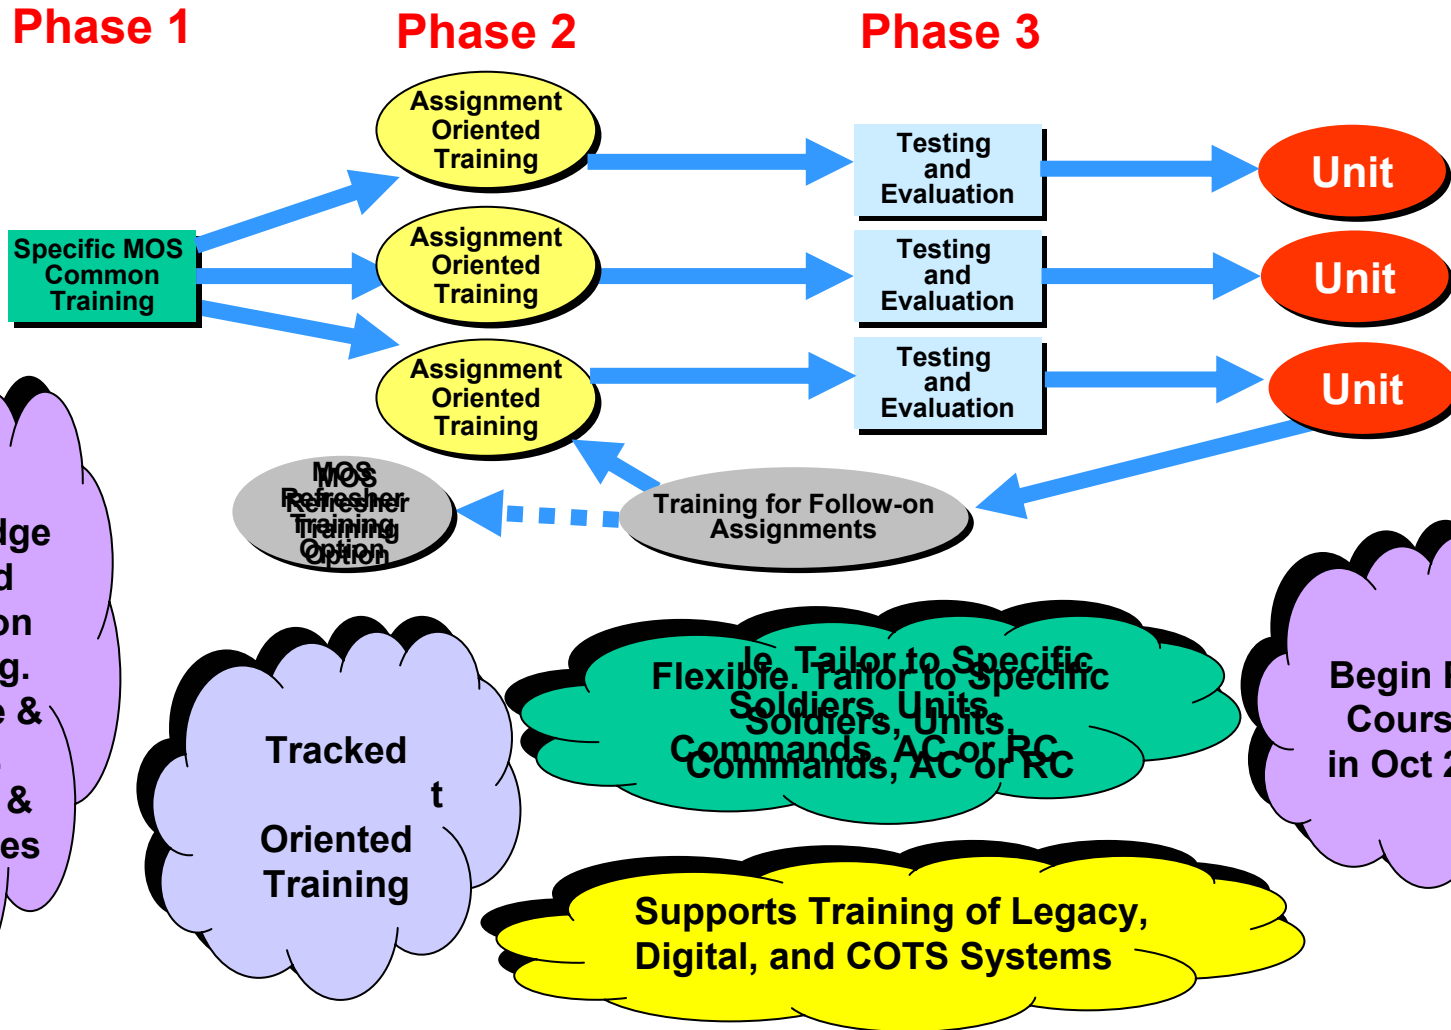

Available While
Assigned to a Unit -
Any Time, Anywhere

UNIVERSITY OF INFORMATION TECHNOLOGY

**Information
Technology
Life Long
Learning**

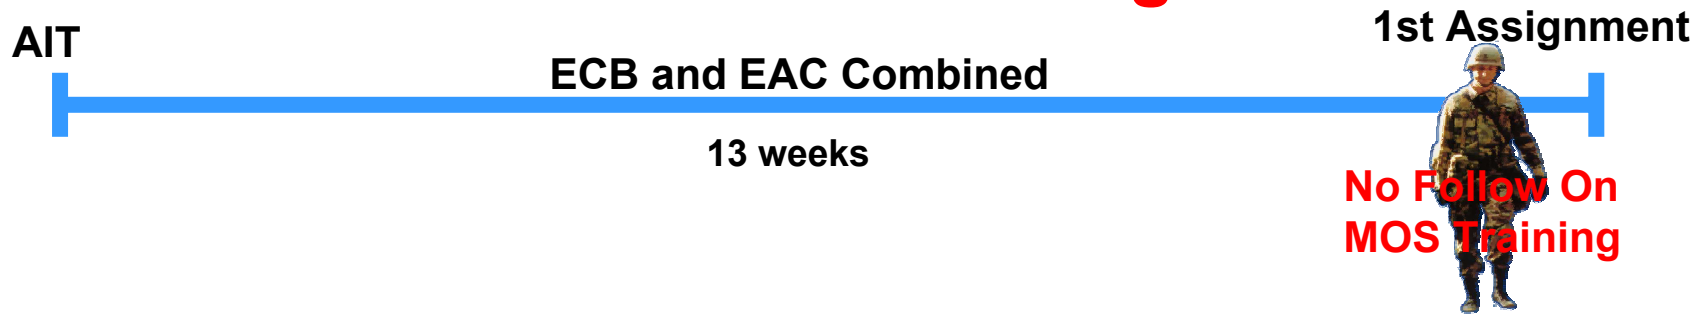

ASSIGNMENT ORIENTED EDUCATION AND TRAINING MODEL

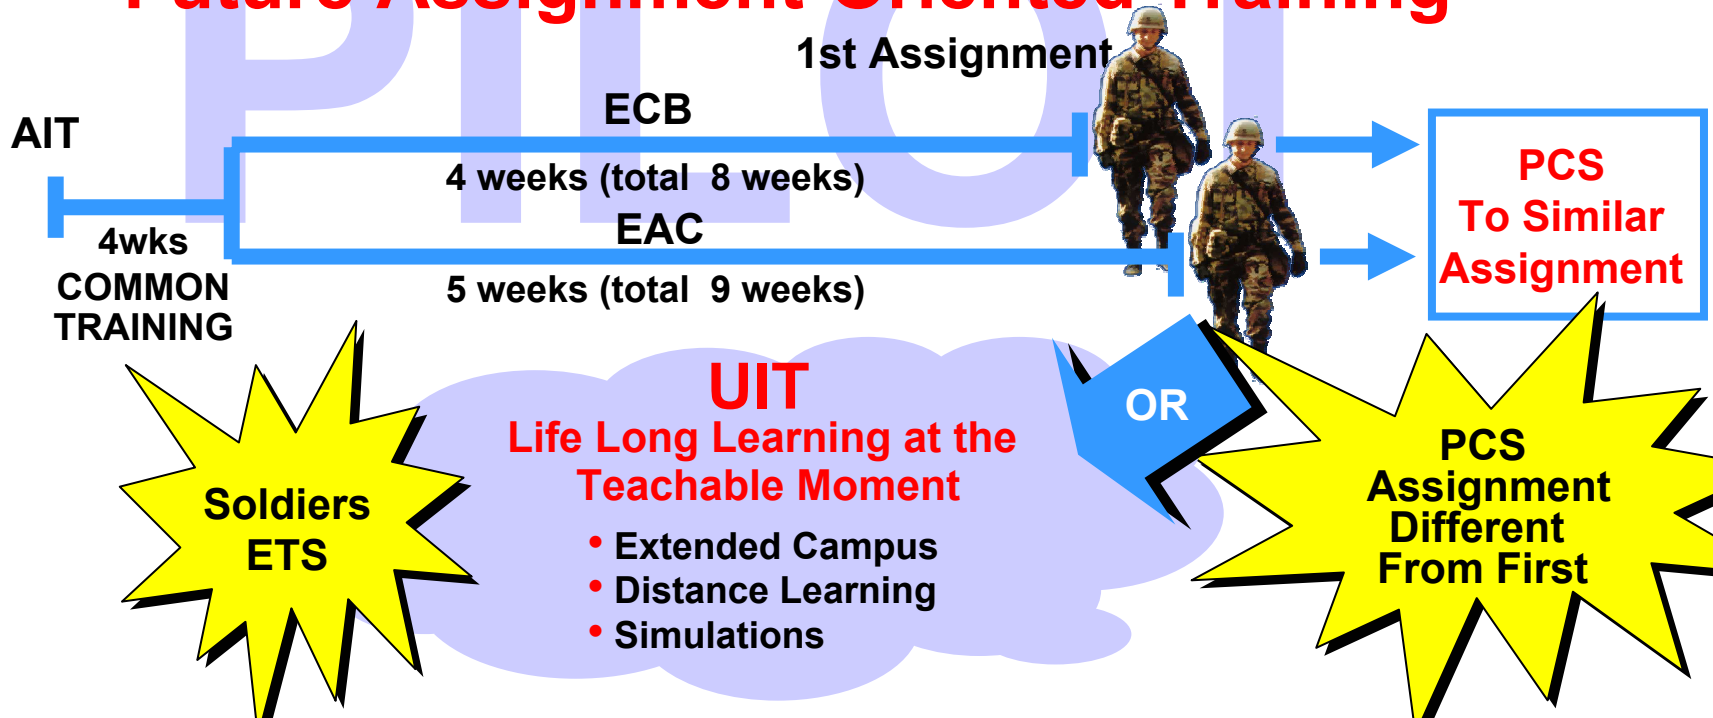

Bottom Line: *Puts Better Trained, More Focused Soldier in Field Quicker, Cheaper.*

31R10 MULTICHANNEL TRANSMISSION SYSTEMS OPERATOR-MAINTAINER AIT TRAINING

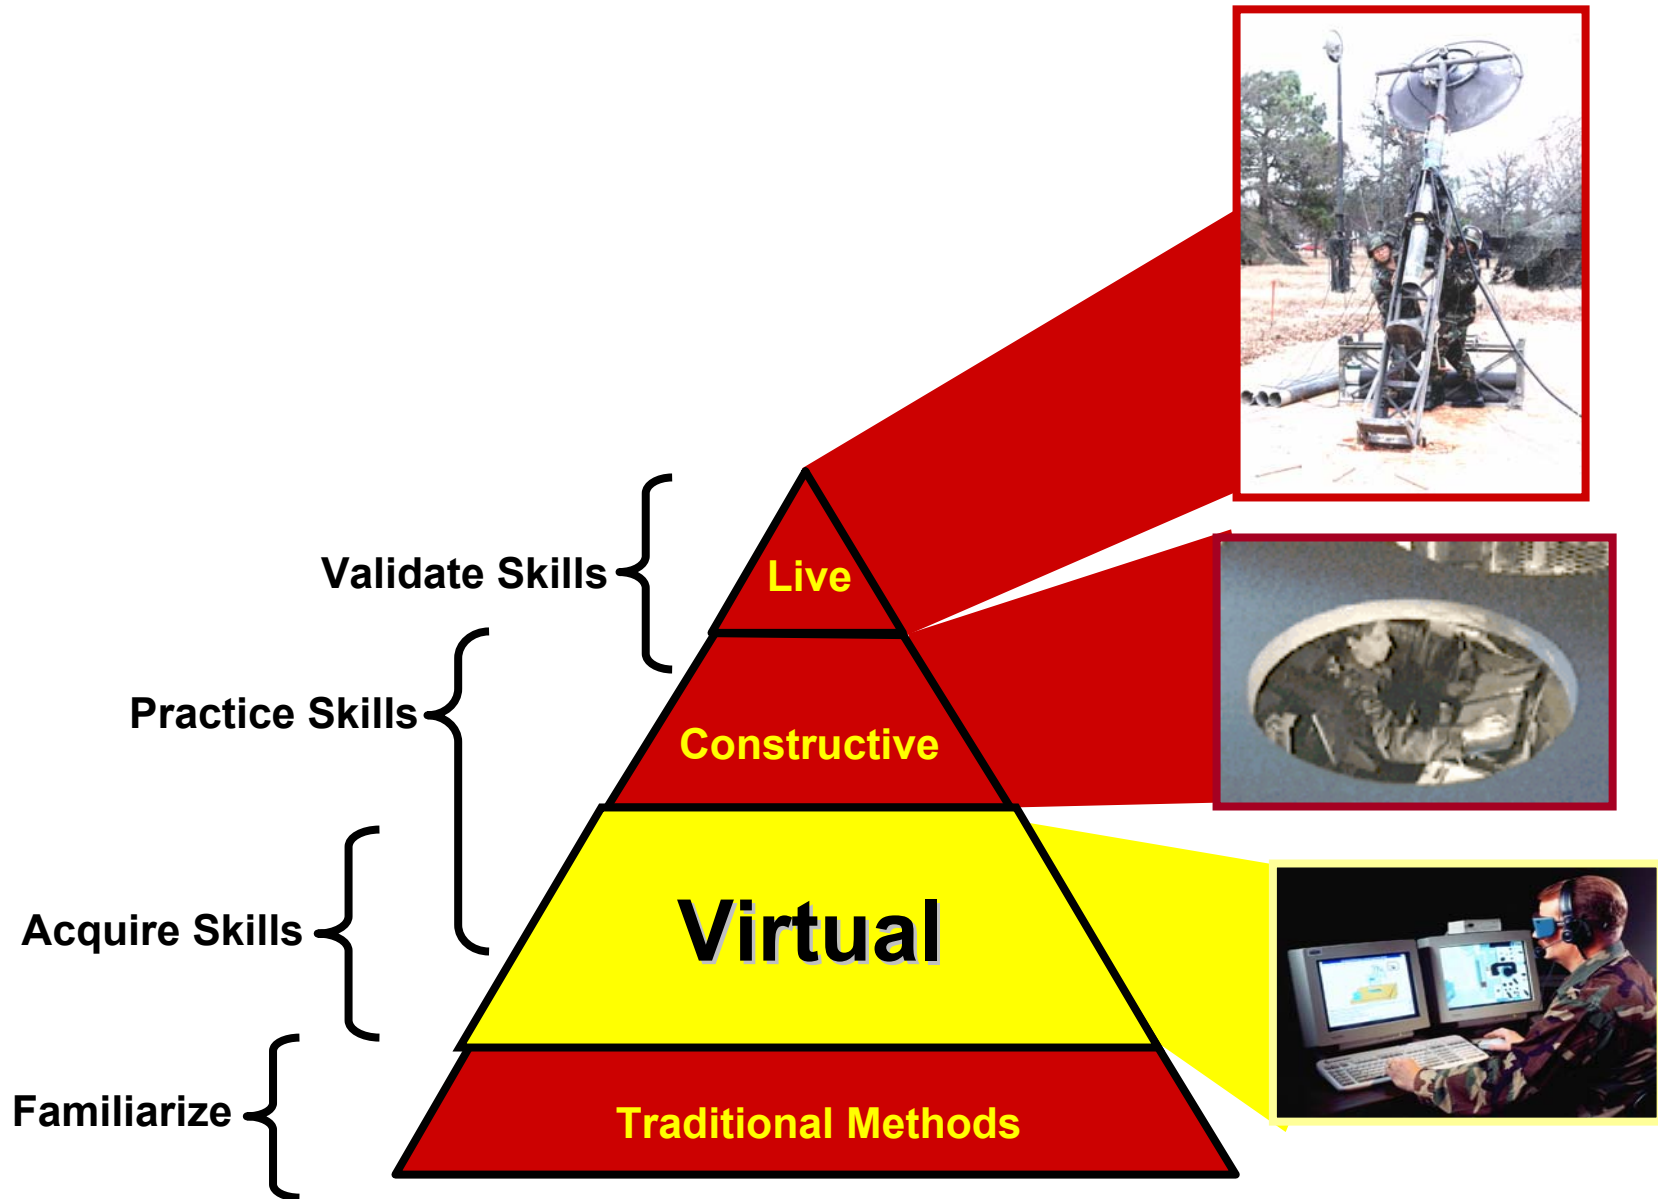

Current Resident Training Model

Future Assignment-Oriented Training

SIMULATION AND TRAINING

SIMULATIONS DEMO

TACTICAL SATELLITE SIGNAL PROCESSOR (TSSP)

Efficient

- The look and feel of real equipment at a reduced cost
- Eliminates training bottlenecks

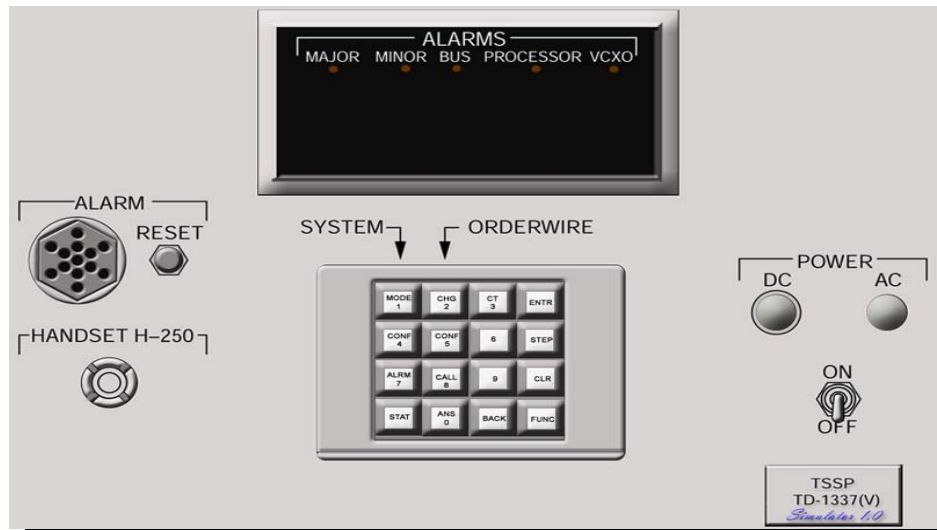

Versatile

- When additional equipment is unavailable or not practical
- Increases hands-on training time
- Exportable to soldiers and units worldwide

Provides training at the teachable moment

- Critical skills from assignment oriented training

Train more soldiers

THINKING OUTSIDE THE BOX!

POTENTIAL PARTNERS IN INFORMATION TECHNOLOGY TRAINING

THINKING OUTSIDE THE BOX!

POTENTIAL PARTNERS IN INFORMATION TECHNOLOGY TRAINING

THE ROLE OF PROFESSIONAL ORGANIZATIONS

- **Recognition of Research and Achievements.**
- **Bringing Industry, Academia, and Services Together.**
- **Advocating Our Needs to Local and National Leads.**
- **True Partners**

TRANSFORMING INFORMATION TECHNOLOGY TRAINING

- **We've Got Some Paradigms to Change.**
- **We've Got a Lot of Work to Do.**
- **Long-term Relevance and Military Value of Fort Gordon to Our Nation and to the Community.**
- **Will Require New Partnerships and New Training**
- **Truly- a Transformation in Training**

SIGNAL MILITARY OCCUPATION SPECIALTIES
